

Leadership Bios

Jonathan Razi

FOUNDER & CEO

Jonathan Razi is a payments industry leader with extensive experience building and scaling technology companies. Jonathan is currently Founder & CEO at Findustry AI, a GenAI platform built for payments. Previously, Jonathan founded CardX while a student at Harvard Law School, which he led through its successful exit to private equity in 2021. Jonathan's track record of thought leadership includes helping to change four state surcharging laws at CardX, and more recently co-authoring the Findustry AI Benchmark, the first benchmark measuring LLM performance for the payments industry.

Adam Finlayson

FOUNDING DIRECTOR OF ENGINEERING

Adam Finlayson is the Founding Director of Engineering at Findustry AI. He has led technology teams for over 25 years. At CardX, he built the engineering organization, technology stack, and flagship product line for the company's credit card surcharging platform. Built In named him a national Tech Innovator in 2021. Previously he spent 17 years at Northwestern University developing academic and research technologies.
